Far away in a deep, dark wood, a pair of mischievous, battling twins have built a magical world from other people's junk. With no-one to tell them to tidy up or go to bed, the twins spend their days creating mad inventions, playing cruel tricks on each other and falling in and out of trouble. ¶ Blending physical theatre, movement, puppetry and live music, **Fairy Tale** is a new production, full of love, laughter and the odd disaster, tailor made for children aged 6-8 years and their families. ¶ Performed in the round, very close up, **Fairy Tale** is full of surprising twists and turns and will enchant both young and older audiences alike. ¶ *Extraordinary work...bold, fresh and engaging* — Independent on Sunday. ¶ *Theatrical gold dust* — The Scotsman.
