

This is a standard rider and not venue specific

Technical Rider for *Fairy Tale*

Performance Running Time: 40mins no interval

The company tours as

2 performers
1 artistic director
1 technical manager

We require parking for 2 vehicles

1 car
1 long wheel base luton box van

Where venue parking is not available, please inform us with directions for nearby parking and approx. cost, before we arrive.

We require the use of 1 dressing room, with hot showers. Bottled water should be available for both cast and crew, throughout the day.

GET – IN/OUT

Dependent upon performance time

Performances on the same day must have at least 4hrs get-in time including a pre-rig
If get-in is the day before performance then no pre-rig is necessary

1/1.5 hour get-out

SET

Ideal performance space: **6m x 8m(wide)**. The set is a 'rubbish tip'.

The structure is free standing, made up of several steel frames bolted together with various materials attached to it. The largest metal piece is 2m(h) x 1.5m (w) x 0.75m (d) and the overall size of the structure is 4m(w) x 3m(d) x 2m(h).

Rubbish materials include, cardboard, woodchips, tyres, bamboo, wood
All materials, that can be, have been treated with either S3 or N5 flamar.

1 lightweight rigging point is needed centre SR to hang a watering can.

Other messy materials used during the show; soil, water, eggs.

We tour with black harlequin dance floor to fit under our structure and protect the venue's floor.

LIGHTING

We need 23 ways of dimming, inc. 4 dips (2upstage & 1 either side downstage)

12 or 14 1k/650w fresnels or PC's

4 or 6 Par 64 (cp62)

2 2k/1k fresnel

3 zoom profiles (1 with an iris)

We tour with all colour and 4 floor stands

See attached lighting plan

SOUND

Sound control position **must** be from the same position as LX. We tour with a small soundcraft desk and playback sources, which can be set up next to lx control position.

PA system must have FOH speakers and a pair of on-stage monitors upstage L&R

We do not require any operators
