## In Loco Parentis

What happens to young people when their parents can't look after them? *In Loco Parentis* explores what it's like to grow up in care. What happens to young people when their parents can't look after them?

*"You do grow up quicker in care. We know more than you guys. That ain't my house. Even if I had to live there 'til I was 18... that ain't my house".* Young Person in Care, Sussex, 2019.

Vincent Dance Theatre's latest insightful and hard-hitting performance *In Loco Parentis*, combines movement, strong visual

imagery and spoken word.

Critically acclaimed for translating real-life testimonies into beautifully crafted performance work, Director Charlotte Vincent illuminates the inner-worlds of care-experienced young people, demonstrating their extraordinary resilience, demanding their stories be heard.

*"Agonisingly visceral, and often beyond words... this is also a piece about love as an enduring source of hope".* The Psychologist, on VDT's *Art of Attachment (In Loco Parentis* companion piece).
